

## Need Small Business Ideas?

With financial security unreliable for so many, you may be looking about for an extra source of income. Or something you can throw yourself into full-time. The internet is a thriving place to make money if you're willing to learn, and really make a strong effort.

Ignore the Get Rich Quick (GRQ) schemes. Instead, put your brains and motivation to work, clear a block of several hours a day and build a web business that can support you and your family in a comfortable style – not instantly, - but after a year or two of hard work.

(SBI) is the crème de la crème of web business builders, with support in the community as you learn the how-tos.

I am building two such sites with SBI and they beginning to be profitable for me!

## Networking Opportunities

Forever Living is a great one if you like aloe vera and natural health products, and can easily entuse others to try

them. Explore it in detail; <http://avhh.myflpbiz.com> You can approach family and friends and take orders, but you can also do your marketing from a website as I do. Feel free to contact me if you have questions.

**The Customer Advantage** – another great opportunity. We all like great bargains, right? Or we know we should, eh?

This is something like Groupon, in that local businesses get a lot of people in their door when they have a special DEAL that is announced to members by email. However, with TCA

you earn a commission on the purchases made by those who signed up from your link, including businesses! Here's mine:

More recently I've been trying out a networking program that offers coffees and teas and hot chocolate drink packets with energy added from a

special mushroom in Asia. The hot chocolate really DOES give me an energy boost! Some potential here, but they do swamp you with emails.

Network marketing can put you through thin times when you run out of people to approach or lose courage. To avoid that you will probably need the help you can get from videos and e-books by Magnetic Sponsoring.

P.S. Use a new/separate email when you sign up for these things, as you will get a lot of emails with some of them.
